The best chiropractic SOAP notes system on the market today!

We know you'll find QuickSOAP to be the best Chiropractic Soap Notes System on the market today. QuickSOAP combines touch-screen technology with stability and flexibility in a product developed in a busy chiropractic practice. Whether you choose the desktop, notebook or a server configuration you will find your charting to be faster, more detailed and actually helping with your patient education and retention!

QuickSOAP has already done the work for you!

All of the procedures and tests are explained in everyday language for your patients, attorneys or claims adjusters to understand. This helps people understand the need for care. QuickSOAP comes loaded with many letters of medical necessity and documents to communicate with your patient's family physician to help you get more referrals!

QuickSOAP understands Chiropractic because it came from Chiropractic!

This program was developed by a chiropractor with over 20 years of experience. No other program offers SOAP notes that read like you dictated them or explain chiropractic procedures and tests in everyday language. QuickSOAP was made to make charting fast, accurate and educational.

Make your practice run faster and have time to see more people!

You will be able to do an average SOAP note in 15-20 seconds with very little time spent learning the software. QuickSOAP makes short work of new patient exams and re-exams and it can easily handle detailed PI (auto accident), worker's compensation and Medicare patients. It's fast and efficient with almost no learning time required.

Are your current patient notes up to the industry standard?

QuickSOAP uses the format that insurers demand! S.O.A.P. Notes, P.A.R.T. (Medicare Notes) Workers Compensation, Auto Accident Reports (PI) and narratives are easy to write and understand, keeping you from spending time justifying your care.

Customizable to Fit Your Practice

- QuickSOAP is easy to use and it's
- completely customizable to fit the way
- you practice chiropractic. You can add
- your own text into the note or report
- exactly where you want it, and you can
- insert large custom descriptions that can
- be entered with just a few keystrokes.

Your Bottom Line

- QuickSOAP will help you easily create
- great documentation in very little time, so
- you can treat more people each day,
- increasing your billable services. You'll
- be proud to send your office notes to
- other professionals who will understand
- what you do, resulting in increased
- patient referrals.

Information Backup

- We feel you can never have too many
- backups. What would you do if your office
- were to burn down tonight? Do you have
- off-site backups of your patient or office
- documentation? Do you have copies of
- your travel cards? We offer secure off-
- site back up of all your patient records
- that can be restored as soon as you
- reconnect through high-speed internet.

TOUCHNOTES

Quick SOAP

QuickSOAP TouchNotes is the most easy-to-use computerized patient documentation system available. Developed by a chiropractor in a busy, high volume practice it has all of the features you need to make practice easier! If you are a Yearly Support subscriber, QuickSOAP will automatically update your software every time you use it.

Just by touching the screen, QuickSOAP easily generates the documents you need in practice: New Patient Exams and Re-Exams, Patient Narratives (PI, WC), Regular Visit SOAP Notes with CPT codes, X-ray Reports, Treatment Plans based on levels of care, Complete Final Narrative Reports, Exercises (based on regions and conditions), and Nutritional Information handouts. All of which are totally editable and customizable!

Each note made with QuickSOAP has the date, the treating doctor's name, the office address and phone number. A signature line is automatically inserted into the document.
